

SUBSOILER

SVH Series

A wide range of subsoilers covering the various needs of the farmer.

SVH-5-3

The ideal solution for ripping terrain. The deep-penetrating shanks break up topsoil and shatter compacted subsurface layers. As a result, the air and water are better absorbed throughout the soil, promoting plant growth.

SVH-9-5

SVH-1

Equipped with **one shank or three to five** widely spaced shanks (fixed or adjustable positions).

SVH-5-3 and SVH-9-5 come with an **optional soil pulverizer**, which breaks up clods.

Adjustable shank height and hassle-free replacement of **wearable points**.

SVHD-3

Optional multi-tiller points: rip through terrain by cutting the subsoil horizontally without turning the topsoil.

| SPECIFICATIONS | | SVH-1 | SVH-5-3 | SVH-9-5 | SVHD-3 |
|-----------------------------|-------|-----------------------|---------|-------------------|-------------------|
| Number of shanks | | 1 | 3 | 5 | 3 |
| Shank width | (in) | 1 1/4 | | | |
| Number of shank positions | | Fixed Position | 5 | 9 | Variable Position |
| Maximum penetration | (in) | 18 | | | |
| Work depthness | (in) | 14 | | | |
| Working width | (in) | 25 | 73 | 98 | 85 |
| Minimum tractor hp required | (hp) | 40 | 75 | 90 | |
| Parking stand | | Standard | | | |
| Hitch | | 3 - point cat. I & II | | 3 - point cat. II | |
| Approximate weight | (lbs) | 220 | 672 | 969 | 907 |
