DISC HARROW RHT SERIES

For performing task of soil preparation, weed control and waste incorporation.

Robust with offset disk. RHT Series quickly adapts to different fields conditions with simple adjustments.

The adjusting screw makes leveling an easy task to achieve.

The frames for the different sections are made with tubular structural steel. It offers strong resistance to torsion and stability during work and transportation.

The off-centrebar allows the alignment of the harrow with the tractor.

Cleaners are standard equipment and keep the discs free from material.

Sealed anti-friction bearings for heavy-duty service.

26" 1/4 discs optional.
