## DISC HARROW RHTSO SERIES

Main framework, disc sections, attachments and transportation axles are fabricated of structural steel, it offers a high resistance to torque.

With five positions for the attack angle in both sections of the disc, which allows a fine flawless harrowing in any type of land.

With a precision screw that makes the balancing of the equipment an easy task.

Oil rowlock.

The hook plates may be adjusted so that the equipment works directly behind the tractor or to its left or right as required.

26" x 1/4" discs optional.
