

MULTI-TILLER

SLC/SDC SERIES

GETS MORE FOR YOUR FIELD

BISON

MULTI-TILLER SLC/SDC SERIES

Optional cleaners keep the discs clean of debris.

Muti-tiller points: rip through terrain by cutting the subsoil horizontally without turing the topsoil.

Multi-tillage system: with only one machine you can prepare the seedbed while mixing the residue, breaking up the topsoil, and shattering the compacted subsurface layers.

The two front disc gangs help incorporate residue onto the upper soil layers for better erosion control.

Shanks come with wearable vertical shins and replaceable points.

Ideal for terrain with a moderate level of harvest residue.

SPECIFICATIONS		SDC-1703	SLC-3220	SLC-T-3420
Number of shanks		3	3	3
Shank width	in	1 1/2	1 1/4	1 1/4
Number of shank positions		Variable	Variable	Variable
Maximum penetration	in	16	12	16
Working width	ft	6' 3"	7' 3"	7' 3"
Minimum tractor hp required	hp	70-100	80-100	100-140
