

TECHNOLOGY THAT INCREASES PRODUCTIVITY

FRONT END LOADER

For 75 - 120 hp tractors.

VH-DTP SERIES

YOUR STRONGEST ALLY

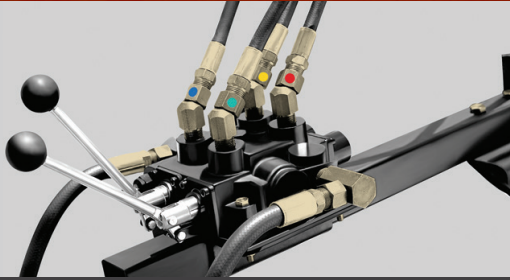

BISON

FRONT END LOADER

VH-DTP SERIES

Versatile, ruggedly built for hard work and long life.

For 75 - 120 hp tractors. Designed for 2 and 4 WD tractors.

Fixed and adjustable valve stands with joystick or two lever control valve are available.

Mechanical self-leveling keeps attachments level when raising and lowering - stack round bales with ease.

High burst pressure phosphatized hydraulic steel tubing and JIC no-leak fittings are standard.

The optional single-lever control provides fast and smooth lift, lower, and dump cycles, making the loader operation faster, easier, and less fatiguing.

Attachment dump linkage provides greater attachment roll-back and dump angle. In addition, quick-attach components (except VH-900-ER) allow for easy mount and dismount in a matter of minutes.

QuickOn / QuickOff mounting to tractor is accomplished quickly and positive locking prevents movement during operation.

AVAILABLE ATTACHMENTS

	VH-1201-DTP	VH-1501-DTP
1 Forklift	Yes	Yes
2 Round Bale Spear	Yes	Yes
3 Square Bale Spear	Yes	Yes
