## ROTARY CUTTER

DB-180 SERIES

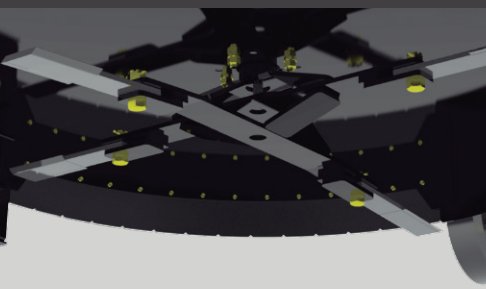

Ideal for shredding crop residues, cutting weeds and grassland maintenance. Adapted with a drainage system, which prevents water from accumulating on the equipment's surface, preventing corrosion.

Quick hitch with offset option.

Quick hitch for 3-point tractors (Cat.2)

It has adjustable height skates, making it possible to increase the usefulness of jobs that the client requires.

Four blades rotary cutter, causing a more effective and balanced cut. Such blades are not fixed, increasing the durability at the time of a blow.

Guide wheel with various work positions, helping to control the depth of work.
