PLASTIC MULCH LAYER

ACOL-72-I PLUS SERIES

A fertilizer and a bed shaper machine. It sets the irrigation line up and also the mulching plastic, all in only one pass.

It can be used either as a plastic mulch layer or a bed maker.

Hose and fertilizer applicators are optional.

Solid structure with a plastic roll-holder and a stand for stocking additional rolls.

Smooth guide wheels stretch mulch over beds without tearing.

Adjustable brakes for plastic and irrigation hose holders. Opener - furrow grid to place the edge of the plastic.

Aligner rollers for irrigation hose applications.
